

# PaFein+

Pain-free dental  
treatment and injections  
for children

Co-funded by  
the European Union

# Pain-Free Dental Treatment (PaFein+) Teaching Model

**1- Nonpharmacological and *Modern Principles* of Behavior Guidance in Children**

**2-Mimimal Invazive (MI) Concept**

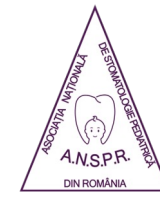

**3-PainFree Injection Technique**

Co-funded by  
the European Union

MARMARA  
UNIVERSITY

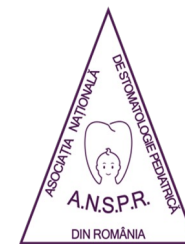

## 2-Minimal Invasive (MI) Concept

The field of **Minimally Invasive Dentistry (MID)** MID is wide, including  
**the detection of diseases as early as possible (DIAGNOSE),**  
**the identification of risk factors (CARIES RISK ASSESSMENT) and**  
**the implementation of PREVENTIVE STRATEGIES and**  
**CONTEMPORARY CARIES MANAGEMENT**

Co-funded by  
the European Union

MARMARA  
UNIVERSITY

## 2-MI concept

**Advanced Tools Used in Caries Detection**

**Evaluate Different Caries Diagnosis Methods**

**Caries risk assessment**

**Prevention, (Dietary control, F applications, fissure sealants)**

**Remineralization**

**Contemporary Caries Management: (non invasive, micro invasive, invasive and mixed intervention, selective caries removal and non restorative caries control)**
